Foreword

Regulation (EC) N° 1013/2006 of the European Parliament and of the Council of 14 June 2006 on shipments of waste (Waste Shipment Regulation - WSR) sets out a system of supervision and control to apply to shipments of waste within, into and out of the EC. This Regulation took effect on 12 July 2007. This Regulation implements into EC law two international legal instruments, the Basel Convention of 22 March 1989 on the Control of Transboundary Movements of Hazardous Wastes and their Disposal and the OECD Decision [C(2001)107/final] concerning the control of transfrontier movements of wastes destined for recovery operations.

The WSR makes a distinction between wastes which is destined:

- for final disposal (landfill, incineration....) or
- for recovery.

With regard to waste which is destined for recovery, a further distinction is made between:

- so called "Green Waste" (Annex III, IIIA and IIIB of the Regulation) and
- so called "Amber Waste" (Annex IV and IVA of the Regulation)

Waste on each of these lists is connected to a particular procedure. Shipments of "Green Waste" for recovery within the EU have to be accompanied by certain information. A prior written notification and consent of the competent authorities is not necessary. This is based on the OECD Decision (C(2001)107/final). The OECD considers that such shipment should not normally present a risk to the environment if recovered properly in the country of destination.

However, the EC cannot impose this stipulations on non-OECD (countries to which the OECD Decision does not apply). Therefore Article 37 of WSR provides that the Commission shall communicate with all non-OECD countries notifying them of the "Green waste" and ask them whether they would or would not accept shipments of such waste for recovery in general, without any control procedure or, if this is not the case, that the control procedure of WSR is applied.

According to Article 37 Para 2 WSR these shipments for recovery **out of the EU** to non-OECD countries have to be regulated by Commission. The framework in which shipments **out of the EU** of such waste destined for recovery to countries to which the OECD Decision does not apply is set by Regulation N° 1418/2007/EC, as amended. According to the stipulations of WSR three options are possible:

- import ban for all "Green Waste"
- procedure of prior written notification and consent according to Title II, Chapter 1 of WSR
- no control.

Concerning countries which have not responded at all to the request of Commission the procedure of prior written notification and consent applies.

All these stipulations are valid for export of "Green Waste" from the EU to non-OECD countries only.

These requirements are clearly outlined in the following "Country List", which is modified from time to time to adapt to the wishes of the individual countries regarding the control procedures.

For Romania transitional arrangements are in place according to article 63 of WSR. These are recorded in this list. In addition shipment bans for limited periods of time to certain waste management plants are in force, which are not reflected in this list.

Explanations to the "Country List" (State: September 2016)

The "Country List" provides a source of information only and entails no legal stipulations whatsoever. All legal rights and obligations are solely as stipulated within the official regulations.

Legal basics	Annex of Regulation 1418/2007	Control procedures concerning Green Listed Wastes (Annex III and IIIA) to Countries to which the OECD Decision does not apply:
Commission Regulation (EC) No 1418/2007 of 29 November 2007 concerning the export for recovery of certain waste listed in Annex III or IIIA to Regulation (EC) No 1013/2006 of the European Parliament and of the Council to certain countries to which the OECD Decision on the control of transboundary movements of wastes does not apply; OJ L 316 of 29 November 2007, p. 6; as last amended by Regulation (EC) No 733/2014 of 24 June 2014, OJ L 197 of 04 July 2014, p. 10	column (a)	These countries are against the import. The export of respective wastes into the country is banned. (ban)
	column (b)	Concerning the export of "Green Listed Wastes" or sub-categories of wastes entries the procedure of prior written notification and consent for the wastes according to article 35 of WSR has to be followed. (control procedure)
	column (c)	Concerning the export of "Green Listed Wastes" or sub-categories of wastes entries no notification is necessary (the information requirements according to Art. 18 have to be fulfilled) (without control (c))
	column (d)	The importing country applies a control procedure according to national law (the information requirements according to Art. 18 have to be fulfilled). (without control (d))

Explanations of signs:	
ISO-Code	International Country Code (DIN 3166)
(★)	EFTA Countries
X	Member Country
(X)	Non EU member state applying the Waste Shipment Regulation (1013/2006/EC)
TR	Transitional regulations according to Art. 63 of WSR

Reading instruction:

The countries requested by Commission partly have called for different control procedures for sub-categories of wastes entries, for example a single plastic like polyethylene from B3010 or a "sub-group" from B3010, like the sub-group of fluorinated polymers. If a sub-group is mentioned this is valid for the whole sub-group (i.e. for all fluorinated polymers mentioned).

The answers displayed in the list for every country have to be seen in connection. The expression "all others" covers all wastes of Annex III and IIIA not mentioned elsewhere in the list concerning the respective country.

list of abbreviations:

A = Alkanes (C10-C13) (pasticiser)	AK = Acrylic polymers	AN = Acrylonitrile
B = Butadiene	FEP = Perfluorethylene/propylene	
MFA = Tetrafluoroethylene-perfluoro methylvinyl ether	PA = Polyamides	
PFA = Tetrafluoroethylene-perfluoro vinyl ether	PETH = Polyethers	
PBT = Polybutylene terephthalate	PC = Polycarbonates	PE = Polyethylene
PET= Polyethylen terephthalate	PMMA = Polymethyl methacrylate	
POM = Polyacetals	PP = Polypropylene	PS = Polystyrene
PPS = Polyphenylene sulphides	PUS = Polyurethane	PVAC = Polyvinyl acetate
PTFE = Polymers and copolymers of fluorinated ethylene	PVF = Polyvinylfluoride	
PVAL = Polyvinyl alcohol	PVB = Polyvinyl butyral	PVDF = Polyvinylidenfluoride
SI = Polysiloxanes		

Ag = Silver	Al = Aluminium	Au = Gold	Be = Beryllium	Bi = Bismuth
Cd = Cadmium	Co = Cobalt	Cr = Chromium	Cu = Copper	Fe = iron/steel
Ga = Gallium	Ge = Germanium	Hf = Hafnium	In = Indium	Mg = Magnesium
Mn = Manganese	Mo = Molybdenum	Nb = Niobium	Ni = Nickel	Pb = Lead
PGM = platin group metals	Re = Rhenium	Sb = Antimony	Se = Selenium	
Sn = tin	SEM = rare earth metals	Ta = Tantalum	Te = Tellurium	
Th = Thorium	Ti = Titanium	V = Vanadium	W = Tungsten	Zn = Zinc
Zr = Zirconium
